A Work Load Distribution (This section must be completed)

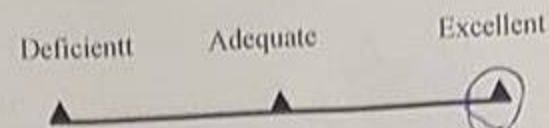

In the table below please indicate the various components of the project (eg.: Initial research, feasibility analysis, prototype development, software design, programming, design of PCB, circuit testing, etc). Also include contributions to any alternative components which your group undertook but which were not finally used by the group. Against each component, indicate the level of contribution that each member of the group made towards the completion of that component.

Use the following five-point scale for assessing contribution: 0: no contribution; 1: minimal contribution; 2: moderate contribution; 3: significant contribution; 4: major contribution.

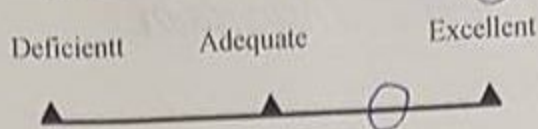

Project Component	Myself	My Partner
